TOTAL			100%

### Air Emissions<sup>2</sup>

Nitrogen oxides (NO<sub>x</sub>), carbon dioxide (CO<sub>2</sub>), and sulfur dioxide (SO<sub>2</sub>) emissions from this electricity relative to the regional average

### Labor Information<sup>2</sup>

95% of the electricity provided in the period 3/1/98 - 2/28/99 came from power sources with union contracts with their employees.

0% of the electricity provided in the period 3/1/98 - 2/28/99 came from power sources that used replacement labor during labor disputes in 1998.

- This electricity product is offered only in combination with other goods and services.
- The supplier represents that the electricity it supplied to meet your needs in the period 3/1/98 - 2/28/99 included the percentages of the "Specified Sources" noted above and the associated air emissions and labor information. The supplier makes no representation about the power sources, air emissions or labor information for its "Unspecified Sources" which are based on the average for all power sources in New England in 1998.
